

SEDD - IDS version 4.0 PUBLIC

Variable name	Description	Source	Value
BirthChildIndicator	Indicator variable, birth of child (observed birth)	Birth register	0 = No birth 1 = Live birth male 2 = Live female birth 3 = Live birth sex unknown 4 = Stillbirth male 5 = Stillbirth female 6 = Stillbirth sex unknown 7 = Twins both live births 8 = Twins one stillbirth 9 = Twins both stillbirths 10 = Other
BirthDate	Birth date	Birth register, parish register	(Not Applicable)
BirthEventDate	Birth date (Observed birth event)	Birth register	(Not Applicable)
BirthFatherOccCode2_1	Father's occupation at birth. Occupation code in database. One Occupation can contain 3 occupations. (The source text is divided into separate standardized occupations. The occupation code is only a database row number.)	Parish register, vital events, census register	Value linked to Code_2 in file Occupation_hiscode_hisclass_scopo
BirthFatherOccCode2_2	Occupation code in database. One Occupation can contain 3 occupations. (The source text is divided into separate standardized occupations. The occupation code is only a database row number.)	Parish register, vital events, census register	Value linked to Code_2 in file Occupation_hiscode_hisclass_scopo
BirthFatherOccCode2_3	Occupation code in database. One Occupation can contain 3 occupations. (The source text is divided into separate standardized occupations. The occupation code is only a database row number.)	Parish register, vital events, census register	Value linked to Code_2 in file Occupation_hiscode_hisclass_scopo

Variable name	Description	Source	Value
BirthFatherOccCode2_4	One Occupation can contain 3 occupations. (The source text is divided into separate standardized occupations. The occupation code is only a database row number.)	Parish register	Value linked to Code_2 in file Occupation_hiscode_hisclass_scopo
BirthFatherOccCode2_5	One Occupation can contain 3 occupations. (The source text is divided into separate standardized occupations. The occupation code is only a database row number.)	Different sources	Value linked to Code_2 in file Occupation_hiscode_hisclass_scopo
BirthFatherOccCode2_6	One Occupation can contain 3 occupations. (The source text is divided into separate standardized occupations. The occupation code is only a database row number.)	Parish register	Value linked to Code_2 in file Occupation_hiscode_hisclass_scopo
BirthSCBcode_Country	Place of birth (Country SCB code)		SCB Code
BirthSCBcode_Parish	Place of birth (Parish SCB code)		SCB Code
CauseOfDeath_std1	First standardized cause of death.	Standardisation	<ol style="list-style-type: none"> 1. Airborne infectious diseases 2. Food-bourne and waterborne infectious diseases 3. Other infectious diseases 4. Cardiovascular diseases and diabetes 5. Accidents, crimes, etc 6. Weakness due to old age 7. Cancer 8. Other specified non-infectious diseases 9. Not specified 99. Not classified

Variable name	Description	Source	Value
CauseOfDeath_std2	Second standardized cause of death.	Standardisation	<ol style="list-style-type: none"> 1. Airborne infectious diseases 2. Food-bourne and waterborne infectious diseases 3. Other infectious diseases 4. Cardiovascular diseases and diabetes 5. Accidents, crimes, etc 6. Weakness due to old age 7. Cancer 8. Other specified non-infectious diseases 9. Not specified 99. Not classified
CauseOfDeath_std3	Third standardized cause of death.	Standardisation	<ol style="list-style-type: none"> 1. Airborne infectious diseases 2. Food-bourne and waterborne infectious diseases 3. Other infectious diseases 4. Cardiovascular diseases and diabetes 5. Accidents, crimes, etc 6. Weakness due to old age 7. Cancer 8. Other specified non-infectious diseases 9. Not specified 99. Not classified
CensusOcc1	Family head occupation in Census. One Occupation can contain 3 occupations. (The source text is divided into separate standardized occupations. The occupation code is only a database row number.)	Census register	Value linked to Code_2 in file Occupation_hiscode_hisclass_scopo
CensusOcc2	Occupation in Census (person who is registered, usually HeadOfFamily). One Occupation can contain 3 occupations. (The source text is divided into separate standardized occupations. The occupation code is only a database row number.)	Census register	Value linked to Code_2 in file Occupation_hiscode_hisclass_scopo

Variable name	Description	Source	Value
CensusOcc3	Occupation in Census (person who is registered, usually HeadOfFamily).One Occupation can contain 3 occupations. (The source text is divided into separate standardized occupations. The occupation code is only a database row number.)	Census register	Value linked to Code_2 in file Occupation_hiscode_hisclass_scopo
CivilStatus	Civil status	Constructed	1 = Unmarried 2 = Married or living together 3 = Widow/widower 4 = Married, not living together
DeathDate	Date of death	Death register	(Not Applicable)
DeathIndicator	Indicator variable, death (from observed death)	Parish register	
FamHeadOccEvents	One Occupation can contain 3 occupations. (The source text is divided into separate standardized occupations. The occupation code is only a database row number.)	Vital events parish register	Value linked to Code_2 in file Occupation_hiscode_hisclass_scopo
FamHeadOcclIncome	Family head occupation from income registers. One Occupation can contain 3 occupations. (The source text is divided into separate standardized occupations. The occupation code is only a database row number.)	Income register	Value linked to Code_2 in file Occupation_hiscode_hisclass_scopo
FamilyID	Constructed unique number regardless of Parish	Constructed	(Not Applicable)

Variable name	Description	Source	Value
FamilyNumber	Constructed unique number within each Parish. A family number is unique within one parish, but the same family number may also occur in other parishes. Family number must be combined with the variable ParishNo to create a unique family number between all parishes. Families who move between parishes have a family number for each parish.	Constructed	(Not Applicable)
FatherPresence	If father is present in the same Family (FamilyNo) and Household as the child. Value is only given to children. (Children: RecordIndividualNoReal 3-99)	Constructed	-1 NA/Missing 1 = Present in household 2 = Not present in household
Flag_context_pos1	Changes made in household dates for context member with position 1	Constructed	0. No error 1. Error
Flag_context_pos100	Changes made in household dates for context member with position 100+	Constructed	0. No error 1. Error
Flag_context_pos2	Changes made in household dates for context member with position 2	Constructed	0. No error 1. Error
Flag_context_pos3to99	Changes made in household dates for context member with position 3 to 99	Constructed	0. No error 1. Error
Flag_individual	Changes made in individual household dates	Constructed	0. No error 1. Error 2. Currently_checking
Flag_individual_entireSpell		Constructed	0. No error
HouseholdID	Constructed unique number regardless of Parish	Constructed	(Not Applicable)

Variable name	Description	Source	Value
HouseholdNo	<p>Constructed unique number within each Parish.</p> <p>A HouseholdNo is unique within one parish, but the same HouseholdNo may also occur in other parishes.</p> <p>HouseholdNo must be combined with the variable ParishNo to create a unique family number between all parishes.</p> <p>Families who move between parishes have a HouseholdNo for each parish.</p> <p>An individual's HouseholdNo is the FamilyNo that individuals living/share a household with. If the HouseholdNo <> FamilyNo then the individual is living (for example as lodger) with another family (FamilyNo).</p>	Constructed	(Not Applicable)
HouseholdSize	Numbers of individuals in household, can be individuals from several families.	Constructed	Count (number)
IndividualNo	Constructed unique number	Constructed	(Not Applicable)
IndivOcc	One Occupation can contain 3 occupations. (The source text is divided into separate standardized occupations. The occupation code is only a database row number.)	Vital events, parish register	Value linked to Code_2 in file Occupation_hiscode_hisclass_scopo
IndivOcc_Income	Individual occupation from income register. Standardised occupation code in database. One Occupation can contain 3 occupations. (The source text is divided into separate standardized occupations. The occupation code is only a database row number.)	Income register	Value linked to Code_2 in file Occupation_hiscode_hisclass_scopo
InmigLocationID	Value linked to LocationID in file SEDD_Location		(Not Applicable)
InmigSCBcode_Country	Inmig from Country (SCB Code)		SCB Code

Variable name	Description	Source	Value
InmigSCBcode_Parish	Inmig from Parish (SCB Code)		SCB Code
LandTypeID	Property rights of land and/or dwelling	Census register	-1 Missing value (OO) 1 Demesne (AD) 2 Freehold (SK) 3 Crown (KR) 4 Church (KY) 5 Manorial (FR) 6 Manorial-Freehold (FS) 7 Church-Manorial (YR)
LastChildBirthDate	Date of previous birth.	Constructed	(Not Applicable)
LastMarrDate	Date of previous marriage.	Constructed	(Not Applicable)
MarriageDate	Date of marriage	Marriage register, parish register	(Not Applicable)
MarriageEventDate	Date of marriage. Observed marriage event.	Marriage register	(Not Applicable)
MarriageNo	Number of observed marriages including the current.	Constructed	(Not Applicable)
MotherPresence	In same Family (FamilyNo) and Household. Value is only given to children. (Children: RecordIndividualNoReal 3-99)	Constructed	-1 NA/Missing 1 = Present in household 2 = Not present in household
NumOfServants	Number of servants in family	Constructed	Counts (number)
OlderBrothers	Number of older brothers of the same family present in the household. (Children: RecordIndividualNoReal 3-99)	Constructed	Counts (number)
OlderSisters	Number of older sisters of the same family present in the household. (Children: RecordIndividualNoReal 3-99)	Constructed	Counts (number)
OutmigLocationID	Value linked to LocationID in file SEDD_Location		(Not Applicable)
OutmigSCBcode_Country	Outmig from Country (SCB Code)		

Variable name	Description	Source	Value
OutmigSCBcode_Parish	Outmig to Parish (SCB Code)		
ParishNo	Parish number	Constructed	-1 = NA/Missing, 1=Hög, 2=Kävlinge, 3=Halmstad, 4=Sireköpinge, 5=Kågeröd
PresentInContext	Indicates whether the individual is under observation / context.	Constructed	-1 = Not in Context, the Individual is not in the parish (gap in spell) during a period 0 = Not in Context (before migration information) 1 = In Context, Observed
PresOfChildren	Number of children of the same family present in the household. Value is only given to RecordIndividualNo 1 (father) and 2 (mother) (Children: RecordIndividualNoReal 3-99)	Constructed	Counts (number)
PrevChildBirth	Number of previous child births (Children: RecordIndividualNoReal 3-99)	Constructed	(Not Applicable)
PrevChildDead	Life status of previously born child. (Children: RecordIndividualNoReal 3-99)	Constructed	0 = Last born child alive 1 = Last born child dead and less than 2 years since previous birth 2 = Last born child dead and more than 2 years since previous birth
PropPrevChildDead	Proportion of previous children of the same family who died.	Constructed	%

Variable name	Description	Source	Value
RecordIndivNoReal	Position of individual in family	Parish register	1 = Male (head of family, husband or single male) 2 = Female (head of family in absence of male, wife or single female) 3-99 = Child 100- = Servant and servant child
SCBcodeParish	Parish SCB-code		
Sex	Sex	From the first data record.	Male , Female
SizeFraction	Taxed size of land unit (Swedish: mantal)	Census register	Decimal values
Stillbirth	Mother (stillbirth)		Male , Female
SurvDaughters	Number of daughters of the same family who are still alive.	Constructed	Counts (number)
SurvSons	Number of sons of the same family who are still alive.	Constructed	Counts (number)
TypeOfHolding	Type of land unit	Census register	-1 Missing value (OO) 1 Farm (BG,B1,BI,BR) 2 Tenant (AR) 3 Mill (KV) 4 Croft (TP) 5 House 1 (GH) 6 House 2 (HU) 7 Manor (SÅ) 8 Other 9 Margin land (UJ) 10 Lot (TM) 11 Apartment (LG) 12 Owner (ÄG) 13 Estate (AD)
YoungerBrothers	Number of younger brothers of the same family present in the household. (Children: RecordIndividualNoReal 3-99)	Constructed	Counts (number)

Variable name	Description	Source	Value
YoungerSisters	Number of younger sisters of the same family present in the household. (Children: RecordIndividualNoReal 3-99)	Constructed	Counts (number)
